

StealthSpout®

Low-profile drain system

Upscale emitters for landscape pros.

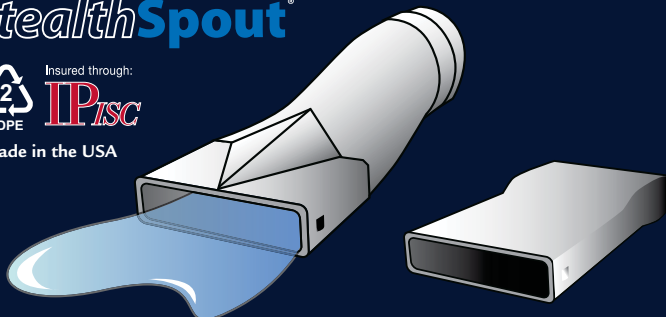

Bet you can't spot the emitter in this picture!

Features	Benefits
Low profile spout	Drain exit disappears into landscape
Wider water dispersion	Reduces erosion
No-clog design	Less maintenance
Extension available for curbs or retaining walls	Perfect for low grade applications
Water flows away from down spout	Pipes stay drier
HDPE construction	Durable and long lasting
Easy installation	No special tools required
Versatile	Fits 3 and 4 inch straight pipe and 4 inch corrugated

StealthSpout®

Insured through:
 IPISC
 HDPE
 Made in the USA

Extension available

US Patent 7,458,532
 Patent Pending
