

| SLIKSTYX[®]

Spray-On Gasket Lubricant

The first spray-on lubricant for all gasketed pipes.

Why Choose Us

SLIKSTYX is the first and only spray-on gasket lubricant for gasketed water and sanitary pipes. This product offers many advantages over the conventional lube. SLIKSTYX is currently available across multiple industries of gasketed pipe: PVC, HDPE, Ductile Iron, and Concrete.

Save Money

One 16 oz. can equals more than three 2lb tubs of conventional wipe-on lube.

Easy to Use

Just point and shoot! Works in cold, wet and other conditions that affect conventional lube.

Convenient

With SLIKSTYX one handed operation and convenient holster, the job can be finished 5X faster than using conventional lube.

Less Mess & No Waste

No messy brushes or heavy cans. Almost 40% of conventional lube is wasted through normal use.
